Lead Consultant, Emergency Surgery

Department of Gastrointestinal & Hepatic Diseases

Surgical division

Copenhagen University Hospital, Herlev

Emergency Surgery Research Group (EMERGE) Copenhagen

## **Bio**

Thomas is the head of emergency surgery at the Copenhagen University Hospital of Herlev. He's academic and surgical interest has been focused on complex abdominal emergency procedures, including complex abdominal wall in the acute setting, open abdomen and burst abdomen. In 2023 he defended the thesis "Burst Abdomen after midline laparotomy: Treatment and identification of risk factors".
