

Dominic A.J. Slade

MBChB FRCS

Consultant general, colorectal, and intestinal failure surgeon

Salford Royal NHS Foundation Trust, Salford, UK

Bio

Dominic Slade is a consultant working at Salford Royal NHS Trust, one of only two national reference centres for Intestinal Failure in the United Kingdom.

Dominic has a special interest in open abdomen and complex abdominal wall repair for large abdominal defects. He is the Chief investigator for the ongoing National Open Abdomen Audit (NOAA) funded by Bowel Research UK and its international version iNOAA. He has published and presented nationally on the management of the open abdomen, complex abdominal wall reconstruction and the abdominal catastrophe. He co-edited the book, "Manual of complex abdominal wall reconstruction" published in 2021.

He is a peer reviewer for the BJS and Hernia journals.
